Career Objective

Test Engineer with 2.2 years of experience in Manual and Web Services Testing with clearly understand of STLC and Testing Process. A highly motivated software tester seeking to get a position in a reputed company, where I can use my skills and knowledge to learn new things and grow as a software developer.

Professional Synopsis

- 2.2 years of professional experience in testing with extensive knowledge of Automation Framework and Implementation using Selenium Tool.
- Good Knowledge of Object Oriented programming Concepts(OOPS) and Java Skills
- Good Experience in writing XPath to locate web elements.
- Worked on Cross browser testing, browsers like Mozilla Firefox, Google Chrome and IE using WebDriver.
- Experience in analyzing Business, Functional and Technical Specifications
- Experience in Java Programming, Selenium WebDriver.
- Well versed with Handling Elements in Selenium WebDriver.
- Writing Test cases using Element locators, Web Driver methods, Java programming features and TestNG Annotations.
- Hands On Mobile Automation Tool Device Anywhere and Appium automation framework and knowledge perfecto mobile
- Aware About data- driven test using Jenkins, JUnit and TestNG, Maven.
- Proper understanding of SDLC, STLC and bug life cycle.
- Experience in functional, system Testing, Usability Testing & Browser Compatibility Testing.
- Experience in Test Case Design, Collecting Data and Test Case Execution.
- Thorough understanding of Water Fall & V Model.
- Familiar with HP ALM Tool.
- Having worked in SQL queries.
- Good knowledge in UNIX Commands.
- Aware about Agile Methodology
- Having work experience in SQL queries. Extensive knowledge of SDLC and STLC.
- Aware about in SOAPUI/RESTFUL Web Services Testing. Validated request and response XML, SOAP and RESTFUL.
- Hands on in testing Web services using Soap UI tool.
- Tested functionality and performance of web services.
- Provided support for all core Web service technologies, including WSDL and Simple Object Access Protocol (SOAP).
- Evaluated function prototypes, parameter lists and the SOAP envelopes during the testing process.
- Worked on different transport like HTTP, HTTPS, REST.
- Working on SOAP project with successful creation of Groovy script.
- Experience in Working on different types of tests like Load Test, Security Test, Database Test.
- Good experience in REST with JDBC connectivity in SQL. Should be able to handle the response code and response time
- Very good experience in passing successful assertions in SOAPUI and REST
- Experience in handling projects independently which includes direct communication with stake holders.

Professional Work Experience

- Currently Working with Aspire Softtech , Pune as a Software Test Engineer from August 2020.

Technical Skills

- **Automation Tools** : SOAPUI, Putty, Selenium WebDriver, Jmeter
- **Programming Languages** : Core Java, C++, C.
- **Databases** : MYSQL, SQL Server, and Oracle
- **Operating Systems** : Windows, Unix
- **Project Methodologies** : SDLC, Agile Scrum, Waterfall, V-Module
- **Build Tools** : Eclipse, Maven, TestNG, Jenkin

Education Details

Degree & Date	University	Percentage
M.Sc. Computer	Pune University, Pune	81.80%
B.C.S	Solapur University, Solapur	64.40
H.S.C	Maharashtra State Board	67.85
S.S.C	Maharashtra State Board	61.60

Project

Title : Cross Telecommunication
Domain : Telecom
Tools : SOAPUI ,Selenium WebDriver, Jmeter, Eclipse, Maven, TestNG, Jenkin
Team size : 10

Description:

Cross Telecommunication ensures reliable data and IP communications for corporate and wholesale customers in Brasília. It provides various types of services like, CRM and Billing System Integration Solution for Cross Telecommunication increase customer satisfaction, delivers value-added services to customers, and improves multi-channel capabilities and effectiveness of marketing solutions in less time.

CRM Plus provides a fully integrated suite of functions to allow sales and customer service staff to manage all aspects of the customer lifecycle efficiently: from initial contact, to sales, post sales, and financial and marketing management. It helps improve the customer experience by enabling high quality, consistent customer service across all contact channels, including call centre, dealer outlet, online self-service and social media platforms. Integrated workflow management and automated processes enable streamlined operations whilst providing a complete audit trail of customer contact activities.

Project_2:

Title : eSmart Financer Corporate Solutions
Domain : Banking / Investment Banking
Tools : SOAPUI, Putty, Selenium WebDriver, Jmeter, Eclipse, Maven, TestNG, Jenkin
Role : SoftwareTest Engineers

Description:

Investment banking activities include underwriting new debt and equity securities for all types of corporations. Investment banks will also facilitate mergers and acquisitions, reorganizations, and broker trades for both institutions and private investors. Coverage and advisory: M&A advice and execution, refinancing, spinoffs, exchange offerings, LBOs, joint ventures, takeover defense, corporate broking and other advisory services.
